Designed for life

Caesarstone is designed for life. For over 30 years, Caesarstone retains its reputation as the world's best countertop, not because we say so but because you do! Engineered to last a lifetime, this durable surface is not only on trend and beautiful, but is resistant to cracks, scratches, heat, and stains. And when things don't go according to plan, we have a residential Lifetime Warranty and national technical team to support you.

Caesarstone is the original quartz surface. Don't be fooled by cheap imitations, it's either Caesarstone, or it's not.

A variety of Caesarstone colours come in versatile slab sizes. Please request confirmation from your installer regarding availability in your region.

Sizes include:

- 3,040m x 1,440m
- 3,230m x 1,630m
- 3,330m x 1,630m

Metropolitan Collection

Caesarstone has taken on the new trend of raw industrial design and pushed it further with the innovative Metropolitan Collection. Rough, tough, and unpolished, these intriguing materials are embedded with depth, movement, and visual impact. Please note: All our Metropolitan surfaces have a matt, non-glossy finish to capture the essence of concrete. Concrete-inspired surfaces require more daily maintenance, but they are just as durable and non-porous as our polished surfaces.

Chasing the Sun

Designed and tested to withstand the sun's rays and the most extreme conditions year after year, Caesarstone's new outdoor surfaces provide the answer for every homeowner's desire to cook, dine, and entertain from the comfort of their own outdoor space.

From a fully-equipped outdoor kitchen in a country garden to a sleek braai station on a city apartment terrace, or even a sophisticated al fresco dining area in a suburban home. However you imagine your dream outdoor space, the Caesarstone Outdoor Collection will help you bring your vision to life.

Introducing *the new* Outdoor Collection

For the first time in quartz history, an outdoor surface made to weather any storm...

Take it Outside

Caesarstone outdoor surfaces are available as large slabs, approximately 3 metres by 1.44 metres and come in 20mm thickness, much like a slab of marble or granite.

A fabricator will first need to template the area where the stone will be installed. Consequently, the slab(s) will be cut and finished into the various parts and then installed to fit within your space. This work can be arranged either directly with a fabricator or alternatively via your landscape designer, architect or kitchen company.
