

final things to be done:

- 1. Add a bit more curtain
- 2. Move recessed wall over to the right
- 3. “Flip” tree so branches just go over or near the recess as per your O1 rendering
- 4. The Chair is warping and stretching to much please look at below to compare?
- 5. Can you add the original colour cups and just make the pot a deeper colour as per example. This is way too dark
- 6. move pot away from the pool edge
- 7. Remove backgroud pot and if possible add soft motion blur of woman walking through in relaxed summery clothing. Please give an option with and without person.
- 8. Please refer to colour of chair in shared google drive wall https://drive.google.com/file/d/1qTnqXXRnFo0z0R8yFzzky-8PIEdxjswrX/view?usp=drive_link
- 9. Is it possible to get a view where the arch is further down as per my original - You could move the chairs in toward the arches? I really liked how you had the dappled light and tree shadows in the previous version.
