CONDITIONS OF SERVICING

- The applicant agrees to accept and abide by the Municipal Water Supply and Sewerage Acceptance Bylaws and the tariffs as amended from time to time.
- The application must be signed where indicated by a plumber contractor who must carry out all internal plumbing work and will be held responsible for its compliance with the Water Supply and Sewerage Acceptance Bylaws.
- The standard position for a connection to serve a dwelling is 0.5m for water and 1.3m for sewerage from one of the side boundaries of the erf, although the Engineer reserves the right to vary this position.
- The position and the size of all meters and communications pipes will be determined by the Engineer.
- Schedules of prescribed charges are obtainable from the City Engineer's or City Treasurer's Departments.
- A metered services deposit must be paid together with the connection fees.
- Note that in terms of the Water Supply and Sewerage Acceptance Bylaws the owner of the premises will ensure that unrestricted access is available to the water meter and sewerage connection at all times and will also be responsible for its protection.
