LATEST NEWS AT DRAKENSTEIN

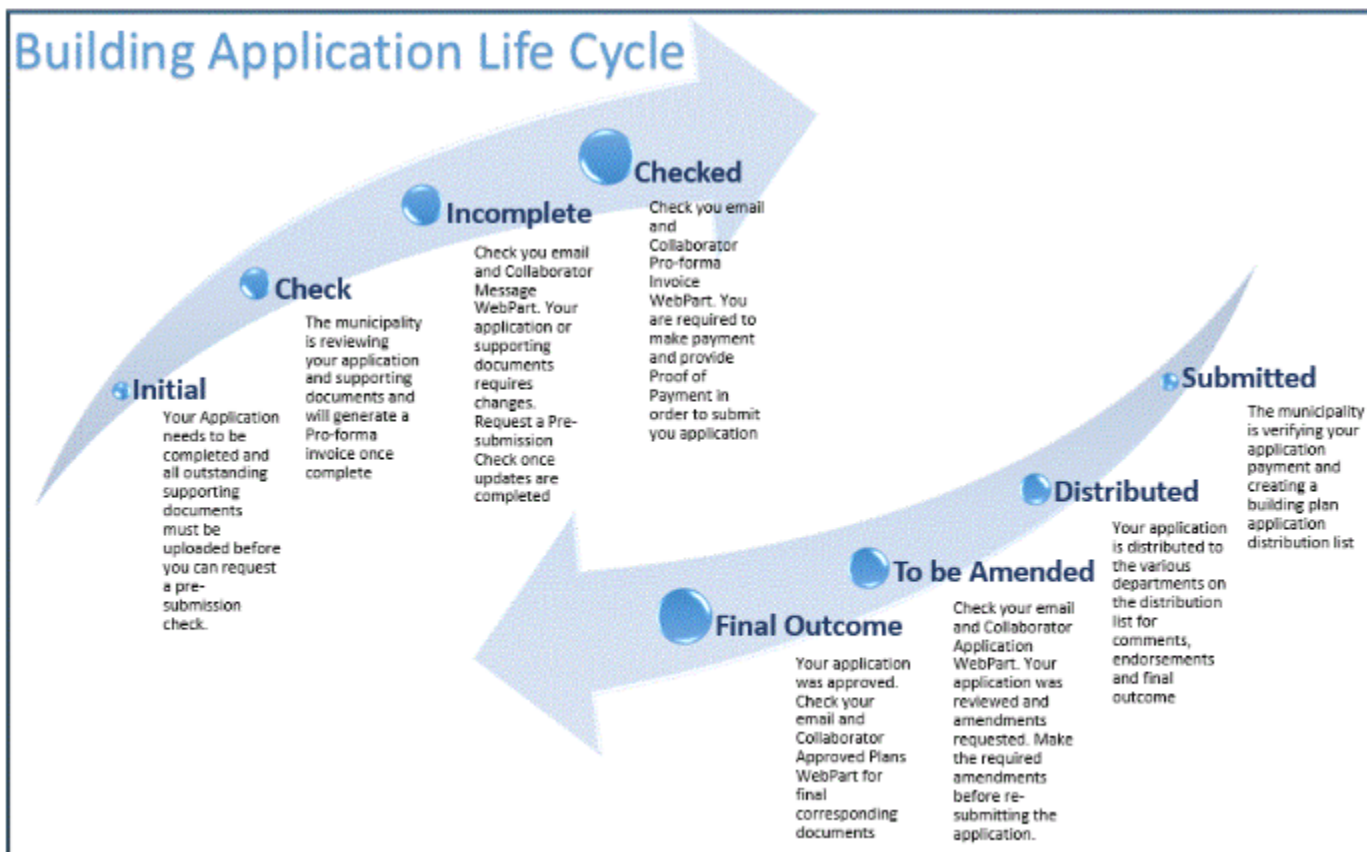

IMPORTANT NOTICE TO ARCHITECTURAL PRACTITIONERS

COLLABORATOR BUILDING PLAN MODULE – PRE-SCRUTINY CHECK

Many process changes to improve service delivery regarding the building plan application process, have been implemented over the past months. In order to enhance the efficiency and effectiveness of the evaluation of building plan process, it was deemed prudent to implement a thorough and stringent pre-scrutiny process.

The pre-submission check process has therefore been redesigned and below is a brief outline as to how this process will work. The main purpose of the redesign is to prevent building plan applications lying dormant for long extended periods in the electronic building control module (Collaborator).

Thus the architectural practitioner must, prior to the submission of a building plan application, determine all legislative requirements and related authorizations.

Great News!!!

You can now Submit Online at:

- Beaufort West Municipality
- Cederberg Municipality
- Drakenstein Municipality
- George Municipality
- Hessequa Municipality
- Kanaland Municipality
- Knysna Municipality
- Matzikama Municipality
- Mossel Bay Municipality

Dear Sir/Madam

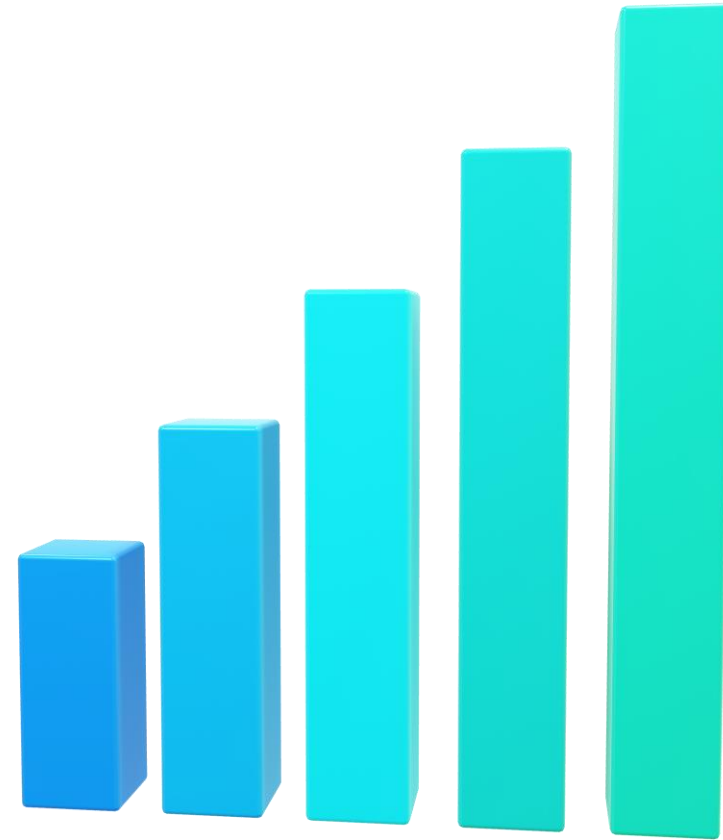

NOTICE OF APPROVAL OF BUILDING PLAN: Erf - 123 - Prince Albert - 970571

With reference to your building plan application dated 2020-10-29 in respect of Residential – you are hereby informed that your building plan application has been **APPROVED** in terms of Section 7(1)(a) of the National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977) on subject to the conditions as stipulated below. In accordance with Section 7(4) of Act 103 of 1977 the approved building plan is only valid for 12 months from the approval date.

General Requirements

1. The approved building plan or a certified copy thereof shall be available on site during the course of construction until a Certificate of Occupancy has been issued.
2. The owner/contractor must notify the building inspector of the intention to commence with the erection and the completion of the building at least 2 working days prior to the inspection being required to enable the Building Inspector to schedule the inspection. All drainage systems must be inspected, tested and approved by the Building Inspector before backfill thereof.
3. The owner/contractor must identify the boundary pegs/beacons and should be pointed out to the Building Inspector prior to the commencement of any building work.
4. Foundation trenches must be approved by the Building Inspector prior to the placing of concrete for the foundation.

Dear Sir/Madam

NOTICE OF AMENDMENT OF BUILDING PLAN: Erf - 123 - Prince Albert - 970571

With reference to your building plan application dated 2020-10-29 in respect of Residential – you are hereby informed that your building plan application is **Not Approved** in terms of Section 7(1)(b) of the National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977). It is required that the building plan application be amended accordingly and the building plan be resubmitted for consideration. Attention is drawn thereto that no building work may commence prior to the approval of the relevant plans. Legal proceedings will be instituted where building work has commenced without prior approval of the building plan.

Reasons for Non Approval:

Please amend size on building plan floor to 150 and attend to storm water pipe outlets along the south side of the building. Electrical certificate to also show new DB board installed.

You are requested to re-submit the revised building plans as soon as possible. Should you neglect to submit the revised building plans within 12 months from date of this correspondence, your building plan will be deemed as cancelled.

Any enquiries regarding the foregoing may be directed to the Building Control Section.

Yours faithfully,

2020-10-29
