## Company profile

Bosun is a leading manufacturer of value added, concrete products. The company is focused on the specialized manufacture and supply of:

- Patented Castle Bottom concrete kerbs and a range of standard kerbs,
- A comprehensive range of paving blocks and slabs,
- Patented concrete retaining wall block systems.

Established in 1993, Bosun is a privately owned company, committed to our promise..."Expect the best"

### Why choose Bosun?

- As illustrated on our logo, Bosun values business that will sustain over the long term. Our aim is to build our business and resulting partnerships based on human integrity.
- State of the art German manufacturing equipment gives us the edge on the integrity of the product.
- Our production capacity is far greater than the industry norm. Our supply chain is therefore responsive and leads times short and reliable.
- Not only do we comply with SANS manufacturing specifications, most products exceed these specifications.
- An extensive fleet of trucks ensures prompt deliveries.
- Bosun offers a comprehensive 5 Year guarantee.
- Bosun offers credit and training for contractors.

## Company Information

The company operates from advanced factories located in Midrand in Gauteng, Brits in the North West Province and Port Elizabeth in the Eastern Cape. The factories are operated according to strict quality procedures, and as a result, our products hold the SANS 1058, SANS 927 or SANS 1215 marks respectively.

It is Bosun's intention not only to be a supplier to the construction industry, but to also contribute to the industry itself and work towards improving the industry. To this end, Bosun is a member of the American Paving (ICPI) and Retaining wall (NCMA) associations who gave us access

to the leading world's leading installation training and design guidelines and we in turn made it available to the South African market.

## **Employment**

The Bosun Group currently employs in excess of 300 people throughout the country.

## **Prestigious projects**

Paving and Kerbs have been supplied to:

- Various Metropolitan Councils and local municipalities throughout the country
- Nelson Mandela Square
- Various Gautrain stations
- Various Bus Rapid Transport systems
- Mall of Africa & Waterfall City
- Coega harbour development
